Truss Repairs in iDesign, October 11, 2019

Alpine Engineers work with our customers to complete truss repairs, like broken members and damaged plates, on a daily basis. However when time is of the essence, IntelliVIEW offers tools in iDesign that each customer can use to complete truss repairs. Join our Engineer team to review all aspects of truss repairs, including these tools in iDesign.

iPanel Tutorials

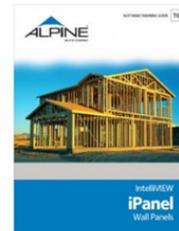

We have designed the Alpine IntelliVIEW iPanel Wall Panels to help you learn the software and increase your productivity. Knowing the tools will make it easier to learn the software and increase the flow of the program.

**This is progressive training program; each tutorial builds on the knowledge presented in the prior lesson. It is recommended that you complete all tutorials, one through sixteen, in order to achieve the best result.*

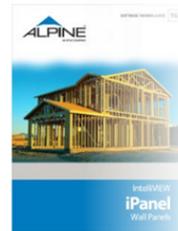

1 – Navigating iCommand

2 – Starting a New Job

3 – Navigating iPanel

4 – iPanel Settings

5 – Adding Exterior Walls

6 – Adding Interior Walls
